

Devanshu Bharel

3rd year Computer Science undergraduate at Illinois Tech, specializing in blockchain development and solution design.

EXPERIENCE

Fulcrum by Axiom — *Blockchain Solution Architect*

03/2017 - Current

Leading the Blockchain Consulting practice for Axiom Technology Group. Communicating with clients and designing solutions to fit niche needs using cutting edge technologies. Leveraged unique partnerships with industry partners such as PEGA to integrate distributed and decentralized solutions for traditional clients such as banks and hospitals. Also contributed to and started open source projects.

Skills: Linux Admin + Java + Solidity + Javascript + PEGA + Python

DistributedID — *Chief Technology Officer*

06/2016 - 03/2017

Part of the winning team at the Distributing Trade Hackathon which build an identity solution using solidity smart contracts to handle user identity for enterprise clients. Built the original solution design and primary worker on the solidity implementation and the back end NodeJS server which interacts with the ethereum chain.

Skills: NodeJS + Angular2 + Solidity + Eris + Project Management

Blockchain Education Network — *Chicago Region Head*

02/2016 - Current

Involved with planning events to introduce new students to blockchain technologies through group meetups, hackathons, hack nights, online outreach, and other marketing activities.

Skills: Leadership + Strategic Planning + Event Planning

PROJECTS

Facebook Post Preprocessor — *Uncommon Hacks '16*

Awarded best use of Artificial Intelligence for use of Naive Bayesian probabilities in a python application to process incoming posts from users in a given group and provide predictive analysis on which would be most troublesome, most liked, etc based on the group's unique history.

DistributedID — *Distributed:Trade '16*

Won 1st place prize for implementing an identity solution using document hashing and storage through smart contracts. Allowed vendors to accept user identity documents without having to store them locally, while still being able to be fill information for government compliance requests.

Chicago Blockchain Hackathon — *Organizing events*

Currently working with industry leaders to leverage my history and experience of hosting large events to bring more developers into the blockchain ecosystem. First event slated to be in November of 2016.

Education

Illinois Institute of Technology, Chicago --
Computer Science

2014- May 2018

Blockchain Education
Network chapter at IIT

Association of IT
Professionals (AITP) &
Association of Computing
Machinery(ACM):Events
Director, hosted hacknights
and code challenge events,
and taught students new
technologies

**Naperville Central High
School, Naperville, IL**
2010 - 2014

Interests

Dancing to Electro Swing - a
mix of Jazz and EDM

Drone Flying - I fly a 3DR
Solo that I won at MHacks 8

Tutoring - I tutor younger
students (middle school) for
problem solving and teaching
them the engineering
mindset.

Attempting to get to most
plays for Hamilton the
Musical on Spotify

Getting lost and exploring
cities while I travel for
Hackathons

LANGUAGES

English, Hindi
